HEADREST ADD-ON AVAILABLE

## A simple recliner with practical features.

The Europa™ is an incredibly compact high-leg reclining mechanism featuring a hidden footrest that tucks under the seat for a stationary look, including modern and contemporary styles. Its slim profile is not only capable of motion, but also has an ergonomic, well-balanced full-recline position that reduces pressure points and provides excellent footrest elevation (26-degree full layout and 37" of ottoman extension). A metal chassis offers dependable frame construction and ease of assembly and installation. Available in manual, power, non-swivel, or swivel with pedestal base option. Also available in a sofa application.
