Coil Flex™

Coil Flex™ Offers The Latest Advancements In Coil Spring Seating

Styling & Design

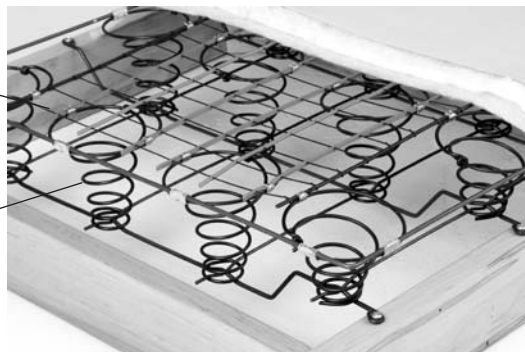

- All the benefits of a coil system, with economical construction for efficient installation
- Selection of coil gauges, heights, and coil count, for fine-tuned seating comfort
- Creates a flat seat deck, for a quality, tailored appearance
- Available in hard edge or spring edge style
- Ideally suited for furniture lines with standardized inside dimensions
- Available in custom designs, with minimum order requirements, or choose from our selection of stock sizes

Performance & Engineering

- Available with dropped and eyed base wires (as shown) for screw attachment to front and back rails; or with straight base wires for staple attachment to mounting rails
- Coil spring unitized with an oil-tempered spring steel grid (proven in the automotive industry) eliminates noisy top support systems found in other coil spring constructions
- Distributes support evenly for uniform seating
- 14 gauge plasteel cross supports provide secure and insulated attachment, plus greater lateral stability
- Oil-tempered spring wire is utilized throughout for a level, resilient deck
- Coil Flex™ is comfort engineered for the most in support and durability

Coil Flex™ top grid provides built-in insulator for better support of seat deck

Time tested coil spring for a deeper ride, and strength
