

Performance and Engineering

- Available sizes for small, medium and large chairs
- Opens smoothly with a push on the arm and closes easily with simple leg pressure
- Rail mounting allows for the ultimate in high leg design
- Compact chassis is designed to operate in a wide range of chair sizes

Styling and Design

- A balanced recliner mechanism with optimum reclining performance for high leg chairs
- Improved linkage design keeps ottoman closed tightly
- Excellent footrest pitch and support
- Safety ottoman brackets meet C.P.S.C. voluntary safety standards with an articulated elevated bracket optional
- Back stabilizing bracket stabilizes back in closed position
- Back tension adjustment allows back pressure to be adjusted to fit the individuals desired comfort
- Engineered bushings at all pivot points for smooth operation and long life
- Counter balanced recline for ease of operation and infinite full recline positions
- Positive stops maintain a tight back and ottoman in the closed, TV, and full recline positions
- Long Life™ mechanism has been field tested and proven by L&P testing facility
